# TURN SUNSHINE INTO Savings

**Energy Save New West is a community program designed to help local residents improve the energy-efficiency, comfort, and value of their homes.**

Whether you're planning a small upgrade or major renovation, we connect you with resources, rebates and expert support to improve your home's energy performance and reduce greenhouse gas emissions.

► **Existing Homes Program**

Provides access to EnerGuide for Existing Homes evaluations and government/utility incentives for home energy upgrades.

► **Multi-Residential Buildings (MURB) Program**

Provides access to rental apartment building and strata MURB services and incentives through collaboration with government, utilities, and non-profit organizations.

**PROGRAM FUNDING & REBATES PROVIDED BY:**
